Community Feedback Wanted!
Using the findings from the Lincoln Vital Signs reports as a starting point, from now through **July 1st**, we are soliciting your thoughts and opinions on three identified themes: Youth Success, Economic Prosperity, and Quality of Life. Please be sure to visit the Prosper Lincoln website and give us your feedback. The results from this community-wide discussion will help set priori and an agenda for change.

Community Health Status Assessment
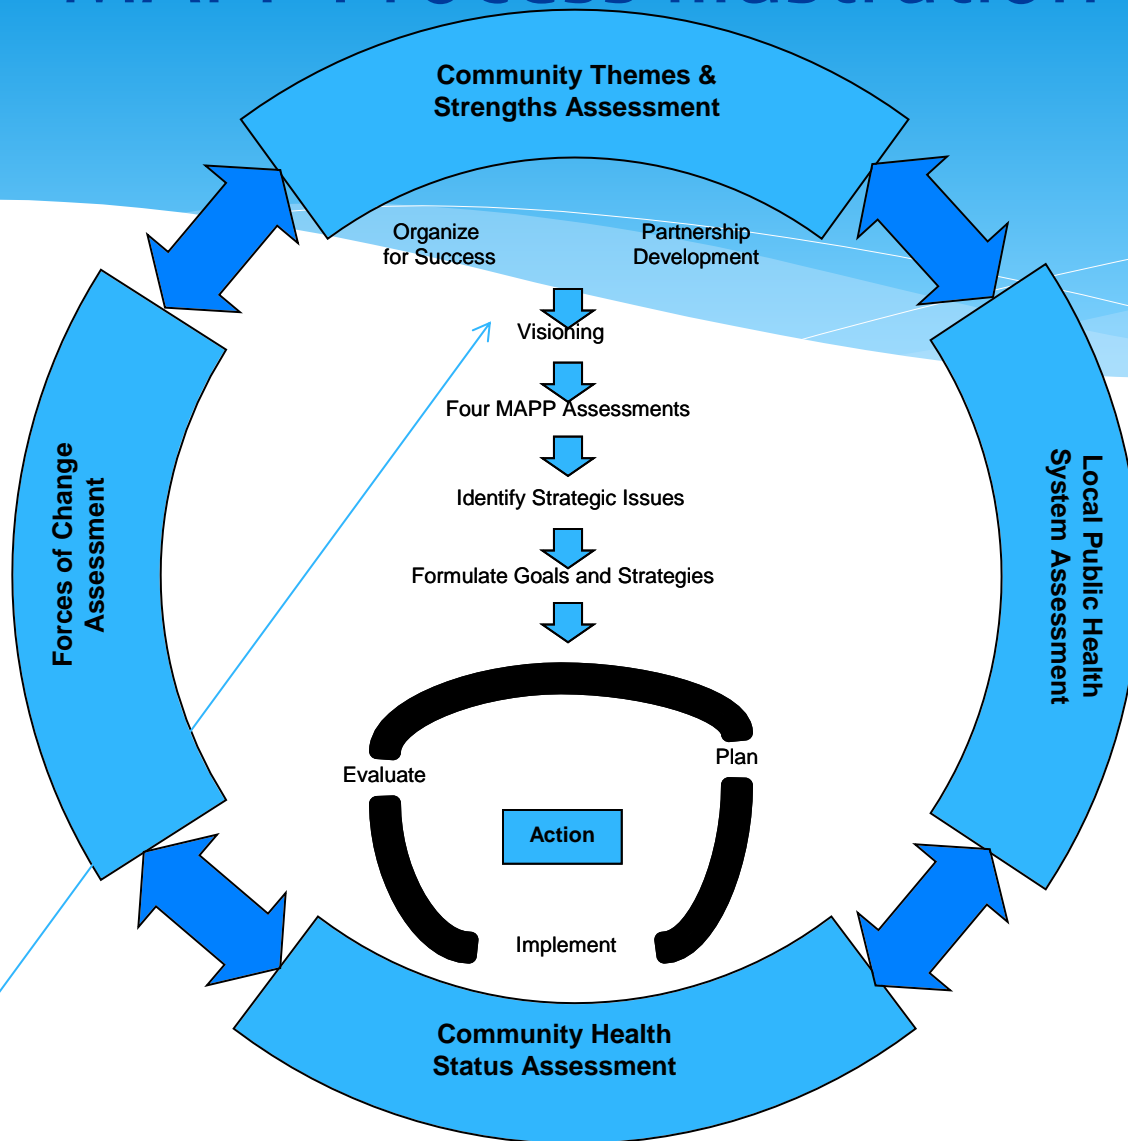

VISION: A thriving community where all people are safe and healthy.

The World Health Organization's Definition of Social Determinants of Health

"The social determinants of health are the conditions in which people are born, grow, live, work and age, including the health system. These circumstances are shaped by the distribution of money, power and resources at global, national and local levels, which are themselves influenced by policy choices. The social determinants of health are mostly responsible for health inequities - the unfair and avoidable differences in health status seen within and between countries." – World Health Organization (WHO) definition

Data Updates

* 2014 BRFSS Data are now posted:
  http://lincoln.ne.gov/city/health/data/brfss/indicators.htm
* Data from the County Health Rankings and comparison to 28 "peer" counties:

  http://lincoln.ne.gov/city/health/data/CHR.htm

County Health Rankings

Introduction

The information displayed on these pages was drawn from the County Health Rankings published annually by Robert Wood Johnson Foundation in collaboration with the University of Wisconsin Population Health Institute. Data is compiled from a variety of different data sources to compare almostevery county in the nation. On the County Health Rankings website, you can see the rankings on a map and see more details about each ranking and where it is in relation to other counties in that state. To visit the County Health Rankings webpage, which includes functionality that is unavailable on this page, **click here.**

The data that is displayed on this webpage is downloaded from the Community Health Rankings website that is specific to Lancaster County and its peer counties across the nation as determined by the CDC for their County Health Status Indicators. The data is color coded in the table to display by quartiles and to show how Lancaster County ranks with respect to peer counties.
Select Indicator Injury Deaths (#)

○ 2014 ● 2015

| Q1 (BEST) | Q2 | Q3 | Q4 (WORST) |

http://lincoln.ne.gov/city/health/data/CHR.htm

Injury Deaths (#): Injury deaths are compared beween counties using the injury mortality rate per 100,000 population, as measured (CDC WONDER).

Injury Deaths (#) In 2015

Rank	Location	Value	95% CI
1	Sarpy Co., NE	33.90	(29.9,38)
2	Wake Co., NC	36.00	(34.3,37.8)
3	Saratoga Co., NY	36.60	(33,40.2)
4	Dallas Co., IA	36.80	(30.3,43.3)
5	Lancaster Co., NE	42.20	(38.8,45.6)
6	Ottawa Co., MI	42.70	(39.2,46.3)
7	Washtenaw Co., MI	42.70	(39.6,45.8)
8	Utah Co., UT	46.00	(43.4,48.6)
9	Columbia Co., GA	47.40	(42,52.8)
10	Cumberland Co., PA	47.60	(43.6,51.5)

12	Ada Co., ID	48.90	(45.8,52)
13	Dane Co., WI	48.90	(46.1,51.6)
14	Henrico Co., VA	49.20	(45.7,52.7)
15	Davis Co., UT	49.70	(46.1,53.2)
16	Rockingham Co., NH	52.60	(48.9,56.3)
17	Lancaster Co., PA	54.10	(51.2,56.9)
18	New London Co., CT	54.40	(50.5,58.3)

Overall - Injury Deaths (#) For 2015

Lancaster County, 42.2

# Community Health Status Indicators

Lancaster County, NE

The following Summary Comparison Report provides an "at a glance" summary of how the selected county compares with peer counties on the full set of Primary Indicators. Peer county values for each indicator were ranked and then divided into quartiles.

	Better (most favorable quartile)	Moderate (middle two quartiles)	Worse (least favorable quartile)
Mortality	Coronary heart disease deaths Female life expectancy Motor vehicle deaths Unintentional injury (including motor vehicle)	Alzheimer's disease deaths Cancer deaths Diabetes mellitus death rate per 100,000 Chronic kidney disease deaths Diabetes deaths Male life expectancy Stroke deaths	Chronic lower respiratory disease (CLRD) deaths
	Adult overall health status Older adult asthma Syphilis	Adult diabetes Adult obesity Alzheimer's diseases/dementia	Gonorrhea

LINCOLN LANCASTER COUNTY
HEALTH DEPARTMENT

Health Disparities

* There are a number of health disparities by gender, by race/ethnicity, by age, geographically, by education and by income groups.

* Certain disparities will be discussed in the community profile after the assessments are completed.

Forces of Change Assessment			▓	▓		
Prepare for the Forces of Change Assessment			▓			
Hold brainstorming session with committee			▓			
Simplify list/identify threats and opportunities			▓	▓	▓	▓

Community Themes and Strengths Assessment

The Community Themes and Strengths Assessment is intended to answer the questions such as:

- What is important in our community?

- How is the quality of life perceived in our community?

- What assets do we have that can be used to improve community health?

CT&S Focus Group Questions

* "How would you describe Lincoln to a friend or family member who had never been here?"
* What do you view as strengths of Lincoln as a community?
* In your family or your friends' families, what are the biggest concerns.
* How would you describe the interactions between Lincoln's community members from different backgrounds?
* What are some of the things that you see as lacking in Lincoln?
* If a task force was being formed to improve things in your community, what topics do you think they would need to address and why?

Forces of Change Assessment

The Forces of Change Assessment answers questions such as:

* What is occurring or might occur that affects the health of our community or the local public health system?

* What specific threats or opportunities are generated by these occurrences?

Forces That Influence Health and the Quality of Life in the Community

* **Trends are patterns over time,** such as migration in and out of a community or a growing elderly population.

* **Factors are discrete elements,** such as a community's large college-age population.

* **Events are one-time occurrences,** such as a natural disaster, or the passage of new legislation.

Public Health System
Ten Essential Services of Public Health

* Monitor Health
* Diagnose and Investigate
* Inform, Educate and Empower
* Mobilize Community Partnerships
* Develop Policies
* Enforce Laws
* Link to/Provide Care
* Assure Competent Workforce
* Evaluate
* Research

Public Health System Assessment

* https://www.surveymonkey.com/r/PFG9K3Z

* Survey agencies and organizations that make up our local public health system.

* Conduct the Local Public Health Performance Standards evaluation.

10 Public Health Essential Services, MAPP Survey Results for 2005 and 2011
VISION: A thriving community where all people are safe and healthy.

Priority Issues Scoring Criteria

One-third weight:

1. Magnitude of the problem

2. Comparison with State (National) Results

3. Historical Trends

One-third weight: 4. Economic/Social Impact

One-third weight:

5. Changeability at the local level

6. Capacity of the Local Health System

7. Readiness/Political Will

Community Health Improvement Plan (2013)

Four Priorities:

* Access to care
* Behavioral Health
* Injury Prevention
* Chronic Disease Prevention

Medical Care Locations
